

FOR IMMEDIATE RELEASE

**CAPINC Expands 3D Printing Offerings with New Dimension 1200es Series**  
New ABSplus™ Material Offers Greater Strength and More Colors

Peabody, MA For immediate release – CAPINC (Computer-Aided Products), the authorized Dimension dealer in five New England states, now offers the Dimension 1200es Series with ABSPlus™. This new material is **40% stronger** and available in new colors, including olive green and fluorescent yellow.

The Dimension 1200es is the largest, fastest model in the Dimension family, with a 10" x 10" x 12" build envelope. It was created to meet the market demand for an affordable, networked, 3D printer capable of building stronger models, with the characteristics of injection molded parts.

The Dimension 1200es Series provides an economical choice for printing functional test parts, tools, patterns, molds, jigs and fixtures in the size you need with the strength of ABSplus(TM) materials.

Stop by booth 431 at OEMNE in Boston MA April 30-May 1 to see the complete line of the #1 selling 3D printers. CAPINC is offering 0% leasing on the 1200es, with 12, 24 or 36 month terms. Customers can include one year of maintenance in the lease contract for additional savings.

About CAPINC (Computer-Aided Products)

CAPINC was awarded number one in customer satisfaction in North America in 2006 by SolidWorks Corp. CAPINC is a leading regional reseller of CAD/FEA/PDM software, rapid prototyping systems, training, consulting, and support.
