

Press Release

March 28th, 2008

FilterSense obtains ISO 9001:2000 Certification

FilterSense has enhanced its long standing comprehensive approach to quality management and customer satisfaction with certification to the ISO 9001:2000 Quality Management Standard. FilterSense has achieved the ISO 9001:2000 accreditation from TUV SUD America. ISO 9001 is accepted worldwide as the standard that defines quality and customer satisfaction.

FilterSense is a world leader in solutions for process filtration including instrumentation, controls, software, engineered services and EPA compliance. Markets include air pollution control, industrial ventilation and process control. Products include EPA and ASTM compliant particulate CEM and filter leak detection systems, process particulate flow monitors, pressure sensors, fabric filter diagnostic controls, process optimization systems, EPA reporting software, powder flow and liquid mist monitors.
