

PRESS RELEASE

LUDECA, INC.

Press Release Date: January 10, 2008

LUDECA opens Alignment, Vibration Analysis and Balancing Training Center

LUDECA is pleased to announce the opening of its new Doral, Florida international training center. The newly-built state-of-the-art facility features large classrooms equipped with the very latest in interactive audio-visual training systems and training simulators for machinery alignment, condition monitoring and balancing, all with dedicated laser alignment, vibration analysis and balancing systems.

LUDECA offers practical hands-on courses, taught by experts, in a small class size to promote one-on-one interaction and personalized attention. From basics to the most advanced applications, everything is covered in depth. Training courses are offered in English (Spanish also available) and are scheduled throughout the year at the training center or can be scheduled on-site at customers' facilities.

For more information, visit <http://www.ludeca.com/training.htm> or contact Mary Ann Kluthe, training coordinator, at MaryAnn.Kluthe@ludeca.com or 305-591-8935.
