

Schenck AccuRate Announces Its New MECHATRON® Vibro Feeder

For metering a variety of powders, granules, chips, flakes, and fibers Schenck AccuRate announces its latest product offering the MECHATRON® Coni-Steel Vibro Feeder. With a uniquely designed maintenance free feed chute dry solid materials are gently metered for applications in the plastics, food, chemical, and pharmaceutical industries. Volumetric and gravimetric configurations of the feeder are available with complete disassembly from the non-process side for easy cleaning and maintenance. The new stainless steel vibratory feeder is capable of accuracies greater than $\pm 0.5\%$ and feed rates from .01 to 53 cubic feet per hour.

PTXi Booth Number 1055

Schenck AccuRate, is a global supplier of bulk solids metering equipment and systems including MECHATRON® volumetric and gravimetric screw feeders, DEA and DMO weighfeeders, Multicor® and DLM solids flow meters, SacMaster® bulk bag discharging systems, BEMP™ belt scales, SolidsFlow® louvered vibratory feeders and DISOCONT® gravimetric control systems.
